

Active Traders CopyPortfolio - Top Active Traders

Investment Objective:

Active Traders is a people based algorithm portfolio comprised of copying various investors on the eToro Trading Platform that are selected by an algorithm implemented in the eToro database- a unique, dynamic and ever updating trading database.

The algorithm seeks to score and determine the leading top investors based on the following parameters:

Profitable quarters - Active quarters - Copy stop loss per trader (max loss of 5-7%, depending on the risk score) - Low-mid risk score.

This unique scientific approach allows the portfolio allocation to constantly shift between assets as investors skills determine the allocation and look to create performance in different market scenarios.

Each trader in the portfolio is set a 5-7% stop-loss to prevent large drawdowns.

Is this the right CopyPortfolio for you?

1. You believe in data science capabilities derived from eToro's large data sets.
2. You wish to gain exposure to some of eToro's leading investors.
3. Looking for a research-based diversified exposure to the true essence of wisdom of the crowds in financial markets.

Enhancing Thematic Investing:

CopyPortfolios are professionally built using eToro's social features and its vast array of financial instruments. Leaning on its large database, comprising data generated by millions of users, CopyPortfolios bundle financial assets under one predetermined market strategy or traders into one diversified investment portfolio. CopyPortfolios offer many benefits to both experienced and novice investors, enabling them to add depth and financial innovation to their portfolios.
