

Investment Objective:

This portfolio offers investors the opportunity for a long-term investment in the future of money. This ready-made investment strategy comprises companies spanning multiple industries, including the payments and blockchain space.

This innovative allocation represents a blend of companies in the mobile, wearable and digital payment sector combined with crypto assets that are involved in the payment industry. This includes blockchain companies that have already established connections with mainstream financial institutions.

The fact that this portfolio combines assets from two separate asset classes, crypto and stocks, adds another layer of diversification, as these two sectors are independent of one another and are subject to different market forces.

The crypto segment of the portfolio was given a 20% weighting in which the crypto assets weigh equally. The additional 80% of the portfolio is dedicated to the equity holding which also is then distributed equally between assets.

Is this the right CopyPortfolio for you?

1. Are you seeking exposure to companies involved in the future of digital payments?
2. Balanced exposure to an array of companies and instruments that represent a different approach to digital payments and the future of money.
3. Looking for research-based diversified exposure to this industry and its potential by using a mix of global equities and crypto currency allocation.

Enhancing Thematic Investing:

CopyPortfolios are professionally built using eToro's social features and its vast array of financial instruments. Leaning on its large database, comprising data generated by millions of users, CopyPortfolios bundle financial assets under one predetermined market strategy or traders into one diversified investment portfolio. CopyPortfolios offer many benefits to both experienced and novice investors, enabling them to add depth and financial innovation to their portfolios.

About eToro:

For more than a decade, eToro has been a leader in the global Fintech revolution. It is the world's leading social trading network, with millions of registered users and an array of innovative trading and investment tools. CopyPortfolios aim to help investors minimise long-term risk and promote opportunities for growth, by taking copy trading to the next level and creating diversified investments.
